VOL XIX—NO 261 CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, THURSDAY, APRIL 10, 1919 TWO CENTS

WASHINGTON COUNTY TO HAVE A PROGRESSIVE ROAD CAMPAIGN

Will Join With State On A Fifty-fifty Basis to Improve Roads

A BOND ISSUE WAS FAVORED

Washington county proposes to have a progressive and far-reaching road campaign by which it is hoped to improve the general highway situation of thecounty very materially at the same time building some of the more important roads which would be main thoroughfares. This plan of action was practically decided upon at thesecond meeting of the Good Roads Association which met at Washington on Wednesday with representatives present from every part of the county.

One of the first acts of the convention was to permanently organize when John W. Warrick of Washington was elected president and Kerfoot W. Daly of Charleroi first vice president. Other officers were also elected who will now have charge of the affairs of the association and who will have full charge in any campaign which may be undertaken in the future.

An executive committee was also appointed one being from each of the 12 state highway routes in the county. Herbert Hertzog represents the Charleroi-Bentleyville; Frank Colvin the Monongahela pike, and J. J. Hott the Speers-Charleroi, Coal Centre road. A. T. Craven was chosen to represent the district through Carroll township which connects with the improved highways in North Charlero.

At the afternoon session H. R. Campbell, Chief C lerk to the County Commissioners, made the principal address. He outlined the plans of the State Highway Department and said the county would profit, not so much from the expenditure of the fifty million dollar fund as from revenues derived from other sources which the State would expend on the fifty-fity basis. Two of the principal roads to be permanently improved under this system are the old Williamsport pike between Monongahela and Washington and the river road from Speers through Allenport to Coal Centre.

The convention favored a bond issue by the county to take care of its proposition of the money necessary to finance all such propositions in which the State is to have a part.

JOHN MALLABONE DIED IN MERCY HOSPITAL

John Mallabone one of the best known citizens of Charleroi, and who conducted a pool room at 517 McKean avenue, died at the Mercy Hospital, Pittsburg, at an early hour this morning. The body was brought to Charleroi this afternoon and announcement of funeral will be made tomorrow.

HEAVY FINES FOR DISORDERLY CONDUCT

The young men arrested Tuesday night for disorderly conduct at the lower end of town and who broke a number of signal lamps placed by the maintenance of way department of the Pittsburg Railways Company, were given a hearing before Burgess Woodward last evening. One of the defendants was fined $2 and costs, another $15 and costs and the others $3 and costs. All of them paid their fines but one.

HEARING ON GAS QUESTION

West Brownsville Citizens Join With Others Against Gas Company

CALIFORNIA ALSO JOINS FIGHT

West Brownsville citizens have joined with those of South Brownsville and will continue the fight against the Greensboro Gas Company on the rate question. This was determined upon at a public meeting held Tuesday night at which time Attorney Baker of Washington, explained what had already been done, and the proceedure necessary if the contest was continued. After some discussion it was decided to proceed with the action against the gas company, and a committee of three citizens was appointed to accompany Attorney Baker to the hearing which was scheduled for this morning in the City County Building n Pittsburg. This committee will report on what may develop at the hearing to another public meeting, which will likely be held early n ext week.

Representatives from California and Fredericktown were present and explained they were heartily in favor of continuing the fight. They promised to be represented at the public hearing to be held before the Public Service Commission in Pittsburg today.

The representatives from Charleroi will not attend the meeting as they have agreed to withdraw the proceedings against the company on a promise that the ready-to-serve charge will not be pushed.

In a revision of railroad passenger rates between Monongahela and Charleroi, the rate between Donora and Monongahela was increased from 13 to 14 cents and the rate between Donora and Charleroi was reduced from 17 to 16 cents.

AN APRIL FOOL

NOPE! I AINT PLANTIN' MUCH THIS YEAR! BOTTOM'S LIABLE TO DROP OUTTA THESE WAR PRICES ANY TIME - 'EN THEN WHERE I'D BE WITH A LOTTA CROPS ON MY HANDS?
J. THOMAS

Will Make Assignments For "Peace" Gardens

Health Officer Darby, who was in charge of the war gardens last year will be at the McCloskey farm, for merely the old Sphar place on Saturday afternoon at one o'clock, at which time he will be prepared to assign squares and locations for "peace" gardens. The ground is now being ploughed and made ready for the gardener, and Mr. Darby will be on the premises at the time stated to assign locations to those who desire to have a garden. Last year the venture proved very profitable to many of our citizens, and it is expected to be equally so this year. Those who have made applications and all others who desire to get an assignment are requested to meet Mr. Darby at the time and place appointed. "Peace" gardens promise big things this year.

MOTHERS INVITED TO HEAR MISS NOBLE

The mothers of Charleroi are especially invited to attend the District Sabbath School Convention Friday afternoon and hear Miss Noble who is to speak on "Physical Child Welfare Nutriment." Miss Noble represents the Home. Economic Extension Department of State College and what she has to say on this subject will be of the utmost to them. Miss Noble is scheduled to speak at 3:35 p. m., although it may be a little later before she will make her address. The officers of the local Association hope that the opportunity of hearing Miss Noble will be taken advantage of by every mother in Charleroi, if this be possible, as she has a message of unusual importance for them.

Passion Play at the Turner Hall tonight and Saturday at 7 p. m. Admission 25 cents. 261-t1-*

P. H. C. TO HOLD A MOCK TRIAL

At the Wednesday evening meeting of Charleroi Circle 303, P. H. C. it was unanimously decided that the Circle would put on a literary entertainment and mock trial May 15th being the tentative date selected. The proceeds from this undertaking are to be applied to paying the war tax of male members of the Circle who are doing d uty for Uncle Sam. There are 52 of such members and the purpose for which the proceeds are to be used will edd incentive to the undertaking.

The mock trial which is expected to produce a great deal of amusement, will be in the nature of a breach of promise suit between two young members of the Circle. A judge, two attorneys, jury and a full set of court officials will be appointed and announced at the next regular meeting.

A great deal of interest was manifested in the proposition and not a few of the younger members of the Circle have already volunteered their services both for the literary entertainment and the mock trial, which promises some very interesting and romantic developments.

WILL MOVE MAIN OPERATING OFFICES TO BENTLEYVILLE

REQUESTS NAMES OF FIFTEENTH'S FAMILIES

Members of the immediate family of Charleroi men serving with the Fifteenth Engineers are requested to send their names to Mrs. John O'Neil Hotel Monier, that a sufficient number of badges may be secured for the reception and welcome to be tendered to the returning soldiers, which is to be held in Pittsburg. These names should be sent in before Wednesday next at which time the Mothers of the Fifteenth will hold another meeting. A nominal fee of 10 cents will be charged for each badge.

HOSPITAL IN GOOD SHAPE

Records Show Balance Over Expenses For the Past 15 Months

MANY PERSONS SERVED FREE

A meeting of the directors of the Charleroi-Monessen hospital association was held at the First National Bank Wednesday evening at which time reports were made on the general workings of the institution, as well as the financial condition of the various funds. Considerable routine business was transacted while the prospects for the proposed new building was discussed at some length.

A statement of the general fund of the hospital showed that the receipts for the past fifteen months were $18,346.63, while the expenses were $18,142.75, showing an excess of receipts over e xpenses of $203.88. The number of pay patients admitted to the institution for the past 15 months was 5,811; number of free patient 1,803; number of beds for patients 38, and the average number of patients daily 18.

A statement of the special fund from January 28, 1918, to January 31,, 1919, showed receipts of $688.51 and expenditures of $411.89 leaving a balance of $272.62.

A statement of the fund of the Ladies Auxiliary showed receipts of $172.63 and expenditures of the same amount.

Mr. and Mrs. Gust Holman went to Washington Thursday to attend the funeral of Mrs. Nannie McBride Holly.

Union Coal & Coke Co. Have Leased Rooms in Bank Building

MAY DEVELOP A NEW FIELD

The Union Coal and Coke Company, which operates all of the mines in the Pigeon creek valley, with but one exception as well as the big coal workings at Marianna, has closed a deal with the Farmers and Miners Bank of Bentleyville, whereby the coal company will take over the entire third and part of the second floor of the bank building, which space will be turned into modern and complete general offices for the transactions of the company's business in Washington county.

According to report this will be the general office of the Union Coal and Coke Company which will direct the workings of all its mines from that center. Formerly the company maintained an office in Monongahela, but this was given up a few months ago, and the affairs of the company have since that time, been directed from short time ago the general offices of the company are to be located at Bentleyville and when the rooms are ready quite a number of employes, who are now engaged in the Pittsburg offices, will be transferred to Bentleyville.

The Union Coal and Coke Company which bought out the Kuhn interests in this county have several thousand a cres of virgin coal in the Scenery Hill district and it is intimated that active operations in this field may begin at any time. It is known that engineers have been at work there recently, surveying the property but the project was given up. It is now said the new owners will shortly begin the development and that a modern town will be one of the features of the enterprise.

The moving of the offices of the company to Bentleyville will make that place an important mining center.

CHARLEROI WOMAN ON RECEPTION COMMITTEE

At the meeting of the Mothers of the Fifteenth Engineers held in Pittsburg on Wednesday, Mrs. Hudspth of Charleroi was appointed a member of the reception committee. Mrs. John A. Lohman of Monessen and Mrs. Sarah Clanson of Belle Vernon were also appointed on the same committee. Mrs. John O'Neil second vice president of the Association attended the meeting and reported it as being a most enthusiastic one. The grandstand for the accommodation of the Mothers will be erected in

IN THE SHADOW

America stood just as much in the shadow of Prussianism when we entered the world war as did England, France, Italy, or any one of the lesser allied nations.

Had Germany won the war we would have paid just as heavily as they.

In fact America would have borne the lion's share of the cost.

For America alone had the money to pay. And Germany knew it.

Forty billions of dollars was the assessment scheduled against us.

But even this wouldn't have been the worst of it. Germany had other extortations in mind.

She wanted raw materials for her factories that she might renew her grip upon the world trade. This would have meant our prosperity smashed to bits.

She wanted effective restrictions placed upon the free use of the sea lanes of the world. This would have shattered our foreign commerce.

She wanted most of all the Germanization of America. This would have meant a curtailment of our liberties. A modified enslavement.

And she had planned what in effect would have been a United German States of the world. This would have meant German dominion and America a vassal nation.

But America's entry into the war knocked the German ambitions into a cocked hat. Saved America from all this arrogant German over loarding.

It will have cost us, eventually, something more than $30.000.000,000.

But wasn't it worth it?

And a lot of the bills are yet to be paid. Probably half of them.

On these the proceeds of the Victory-Liberty loan will be applied.

Of course you are appreciative. Value your liberty, your comforts, the national prosperity, the national as well as your individual welfare.

You can prove just how much by your subscription.

SOCIALISM DEFEATED

From Milwaukee, which is supposed to be a hot bed of Socialism, comes the welcome news that every candidate upon the Socialistic school and judicial tickets has been defeated in a vote of at least two to one. The issue was the straight oneof loyal Americanism. and the Socialist seem to have received the worst beating they have experienced since that party became a live political factor in the State. More women voted than have ever turned out before in the history of Milwaukee. Their battlecry was, "Save the schools from Socialism," and the overwhelming defeat of the disciples of Debs proved that the women had not mistaken the temper of the people.

Theoretical Socialism presents many attractive features to the unthinking, but experience proves that it is only too often the road that leads to anarchy and the detestable thing which now goes under the name of Bolshevism. It is especially odious to women because when it is carried to its logical conclusion it would take away the real rights of women and reduce them to a state slavery from which they have been slowly emerging for centuries as the beneficient results of Christianity and civilizaton. Many thinking men have had ther doubts about the benefits of women suffrage, but candor compels the acknowlegement that the election in Milwaukee is one of the strongest arguments of [illegible] women the vote that has yet [illegible] in this country. The home is the real basis of the States, and when that is attacked it has the effect of undermining the foundation upon which this and every other republic is built.

The election in Milwaukee is one of the cheering signs of the times. The clouds are still about us, but when a community like that votes for straight-out Americanism the future is filled with hope—Philadelphia Inquirer.

NEEDLES "MADE IN JAPAN"

The large importation of Japanese needles which threatens the American industry, lends point to the argument for a speedy return to the American protective policy. It is said that the Japanese development of the needle try in the position formerly occupied by Germany, under the Democratic tariff law, as a competitor in the domestic market in machine and hosiery needles. Under the Republican tariff law the duty on knitting-machine and sewing machine needles was $1.00 per thousand and 25 per cent ad valorum. The present law cut the duty to a flat 20 per cent. Latch needles, which, under protection, paid $1.15 per thousand and 35 per cent, were cut to 20 per cent.

The sewing machine needle business was started in this country in 1866 by the Excelsior Needle Company. At the time they commenced operations these needles were selling at $50 per thousand; at the time the present tariff law took effect, October 3, 1913, this company had reduced prices until they were selling a better grade of needle for $5 per thousand. In 1913 the New Home Sewing Machine Company paid wages 60 per cent greater than the wages paid by any foreign manufacturers, and they declared that 80 per cent of the cost of manufacture in this country was labor cost. They estimated that 75 per cent of the needles then imported into this country came from Germany and asserted: "The market for our product is practicdlly limited to the confines of the United States. We do very little export business, for the reason that we can not successfully compete with foreign manufacturers, even in Latin America." Here is a schedules for the Republicans to overhaul with a view to preventing Japan from capturing the domestic trade.

PRICE "BUSTING."

We are getting a bright and shining example of government co-ordination from Washington. The Industrial Board of the Department of Commerce in its endeavors to stabilize the market, has fixed the price of Bessemer steel at figures ten dollars lower than they used to be, says the New York Mail.

If any private corporation had attempted to combat the prices thus fixed it would have been denounced as unpatriotic and the machinery of government would have been put in action to convince it of the heinousness of the offense.

But one department of the government, it appears, is not obliged to follow the regulations established by another department of the government for the common good. This principle has been established by the director-general of railways, who has refused to accept the scale fixed by the Industrial Board and has fixed a price level of his own, from eight to ten dollars lower than that determined by the agency whose business it is to fix prices.

If a private individual had adopted the tactics followed by the director-general of railways he would have been accused of an attempt to throw a monkey wrench into the works.

The question arises. Just how is the conduct of director-general Hines to be characterized?

Or is all this stuff merely a preliminary to the abandonment of price fixing that doesn't fix prices?

CONSISTENTLY UNPREPARED

Carrolton (Mo.) Republican Record "As in the days when Mr. Wilson and his followers harped on 'he kept us out of war,' while we gently drifted into the most horrible of all wars, wholly unprepared so today many people are disposed to appland Mr. Wilson and his 'Fourteen Points' while we are drifting into a reconstruction period as wholly unprepared as we were when we became suddenly engulfed in the world war."

Debs threatened that a strike would tie up the country while he is in jail. Well, if the country can be tied up by any one man, it is not worth the freedom it enjoys.

Who shall pay—the criminals or the victims?

NO WRIST SLAP

Manufacturer's Record—"Bearing in mind that the Allies must live next door to the people who for 2000 years have periodically ravished Europe, we should leave to them the full measure of punishment which must be inflicted upon a nation of moral perverts, rapists, mangiers of children, murderers of millions and pillagers without limit, whose crimes have for four years covered the world with anguish and woe. Otherwise we shall reap a harvest of humiliation and sorrow, and perhaps of unexpressed but latent hatred of millions whose love we now hold."

LANE'S COLD & GRIP TABLETS
GUARANTEED

Score Two For This Tank

NO ROAD impassable, no stunt impossible," is the slogan of the crews of the sixteen real battle tanks which will tour the Fourth Federal Reserve District in the interest of the Victory Loan.

These tanks, of the type known as six-ton whippets, will start out April 14 and keep on crawling until the end of the loan. Tanks just like these helped put the fear of the Yanks into the Hun hordes on the western front and the crews are some of the men who were guiding these agile steel terrors.

These whippet tanks just "eat up" nice sticky roads and steep hills, so protracted spring rains, which make other modes of travel difficult, will not hamper the tanks. Each tank will carry a driver and pilot with a machine gun mounted menacingly in the turret, which can be turned to give the gun a sweep in any direction.

To the Huns in the accompanying photograph the machine gun must have looked quite terrible. They appear to be crying "Kamerad," but the pilot looking out of his turret probably could not hear them while the tank was climbing the rather steep hillock below.

An automobile with speakers and salesmen will travel with each tank. Meetings will be held almost anywhere a crowd gathers to inspect the tank. Some of the tank speakers will be veterans of the last drive which forced the Teutons to ask an armistice.

FOCH FINAL RESORT

The most encouraging news that has come from Paris in a long time is the announcement that Marshal Foch has orders to move on Berlin in a general advance of his armies if the Germans refuse to sign the treaty that is presented to them. The world is assured, from the very vivid demonstrations that took place last year that when Foch takes command of a situation things begin to happen. Far better would it have been if he had been permitted to finish the job that he carried forward so successfully last summer.

LAWLESS APPEAL TO LAW

The socialist press of Paris is having a fit because Raoul Villain, who shot and killed the socialist leader, Jaures, has been acquitted. The legal merits of the case do not appear, but it is a paradoxial fact that the socialists, I. W. W., and bolsevists, who denounce all law, when en masse, scurry under the skirts of the law they denounced whenever their own precious skins are in danger.

Origin of Foolscap.

Several explanations have been given of the meaning of the word "foolscap" as applied to a certain class of paper. One of the explanations is that when Charles I found his revenue short he granted certain privileges, amounting to monopolies, and among these was the manufacture of paper, the exclusive right to which was sold to certain parties, who grew rich and enriched the government at the expense of those who were obliged to use the paper. At this time all English paper bore in watermarks, the royal arms. The parliament under Cromwell made a jest of this law, and among other indignities to the memory of Charles it was ordered that the royal arms be removed from the paper and a fool's cap and bells be substituted. These were in their turn removed when the rump parliament was dismissed, but paper for the size of the parliament's journal stil bears the name of "foolscap."

Consider what you have in the smallst chosen library. A company of the wisest and wittiest men that could be picked out of all civilized countries, in one thousand years, have set in best order the result of their learning and wisdom. The men themselves were hid and inaccessible, solitary, impatient of interruption, fenced by etiquette; but the thought which they did not uncover to their bosom friend is here written out in transparent words to us the strangers of another age.—Emerson

Theaters

Ranging the gayeties from alpha to omega, Keith vaudeville at the Davis Theatre next week, beginning Monday afternoon April 14 will consist of nine acts. These will be presented every afternoon, beginning at 2:15 o'clock and every evening at 8:15. All points of the geographical compass, as well as of theatrical artistry will be included for the players come from the uttermost parts of the earth and are specialists in all the phases of theatric virtuosity, which in the composite make up vaudeville.

Emma Carus is at the top of the list. She is the popular star of musical comedy, whose caperings in the polite varieties have afforded amusement seekers surcease of worry. She starred in "Up and Down Broadway," "A Broadway Honeymoon." in the role of Mary in succession to Fay Templeton, in George M. Cohen's "Forty-Five Minutes From Broadway." and in a number of other successful productions.

The rise of a girl from the lowest depths in the scale of society to a place of honor and wealth is the theme of Norma Talmadge's most recent Select photoplay, "The Probation Wife" which will be the attraction at the New Million Dollar Grand all next week starting Monday morning, April 19. The production is a remarkable picture of New York life from the dregs to the cream, from the Bowery to Millionaire Row. Outstanding features are Miss Talmadge's beauty and artistry, her ability to wear wonderful clothes and the excellent acting of the players whom the Select Company has gathered about the star.

Miss Talmadge is more like her own self in "The Probation Wife." The part is the kind she plays to perfection, giving her opportunity to portray many moods. She is a painted lady of the dive a scrub girl and a trim society matron. Each type is presented with splendid realism.

RETURNED SOLDIERS

are gradually being absorbed again into business circles.

To those who are entering upon new endeavors—and even those who will continue in the old fields—this marks another beginning, a fresh start.

Vinol will Stop a Cough and Break Up a Cold

A constitutional remedy that removes the cause by building up the system. These elements contained in Vinol—Beef and Cod Liver Peptones, Iron, Manganese and Glycerophosphates—soon create an energy that throws off the cold and prevents its reoccurrence. It has given ninety per cent satisfaction for sixteen years. HERE IS PROOF:

Dunn, N.C.
"I suffered with a chronic cold for four months, coughed day and night. Had to keep on working when I was not able to. I saw Vinol advertised and tried it, and I want to tell you it just cured that cold in a short time. It made me eat and sleep well, better everyway."—J. C. Bagley, Dunn, N.C.

Lagrange, N.C.
"For years I suffered with a chronic cough, so I could not sleep nights and continued to lose flesh. My druggist asked me to try Vinol. It cured my cough, I can sleep nights and have gained twelve pounds. Vinol is the best tonic and tissue builder I have ever taken."—W. D. Ren, Lagrange, N.C.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs.

This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haarlem Oil is inclosed in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a swallow of water. The oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarlem Oil Capsules will keep you in health and vigor and prevent a return of the disease.

Do not wait until old age or disease have settled down for good. At the first sign that your kidneys are not working properly, go to your druggist and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.

ONE MINIMUM RATE IN WATER SERVICE

A water company is not justified in charging two minimum rates for service when there is but one meter on the property, according to a decision handed down by the Public Service Commission. The case which involves water service in Duncannon was brought some time ago. The company had charged a flat rate for the building, but when it was learned that part of it had been rented to a family and part used as a store an additional charge was made the corporation contending that it had a right to so charge on the ground that the building was a t enement.

The company is ordered to make but one minimum charge where there is but one meter and to post new rates. The effect of the decision is that if it is planned to charge according to rooms in a building, there must be separate meters for each charge account.

DECIDES TO BE A LIVE ONE

Young Man Comes Back

One of our young men sure has come to the front in short order and his friends are at a loss to understand his untiring energy and ability to work and get results, where only a few weeks before he seemed to be all run down and almost a nervous wreck.

Questioned by a curious friend as to the cause of the sudden change, he said: "I sure was in bad shape and no one knew it better than I did. It had my goat for fair. I was all in and my nerves shot to pieces with worriment and sleepless nights. One day I overheard a customer telling what Phosphated Iron had done for him and I could not get a supply quick enough.

"That's the whole story, just Phosphated Iron. My poor tired overworked nerves just seemed to be Phosphate-hungry, the way they took hold of it, and say what a relief. I felt like a new man. Could sleep at night, and get up in the morning feeling like a two-year-old. Believe me, I had some appetite too, my weight increased rapidly, my face filled out and had the color of perfect health that only goes with pure blood, well fed with Iron.

"You can bet I am strong for Phosphated Iron. Everyone who tries it is a booster.

"Do you know even the doctors are prescribing it; trust them to get next to a good thing".

Special Notice: To insure doctors and their patients getting the Genuine Phosphated Iron we have put in capsules only, so do not allow dealers to sell you pills or tablets.

WOMEN FROM NORTH, SOUTH, EAST, WEST

Recommend Lydia E. Pinkham's Vegetable Compound as a Reliable Remedy for Woman's Ills.

Spokane, Wash.—"I want to recommend Lydia E. Pinkham's Vegetable Compound for women's ailments as it helped me so much during middle age."—Mrs. MARTHA CONNOR, 1027 Mansfield Avenue.

Abilene, Texas.—"For almost a year I was unfit to do my work as I suffered so from female ills. Lydia E. Pinkham's Vegetable Compound restored my health after physicians had failed."—Mrs. E. E. OWENS.

Rockville, Conn.—"I suffered so long from female ills I was blue and melancholy. Lydia E. Pinkham's Vegetable Compound restored my health after everything else had failed."—MARY WIRZ, 3 Chamberlain St.

Oakland, Cal.—"Lydia E. Pinkham's Vegetable Compound gave me such relief during Change of Life, I wish every woman could know about it. I surely praise this great remedy for women's ills."—Mrs. MARY S. ASHLEY, 5709 Dover Street.

The reason Lydia E. Pinkham's Vegetable Compound is so successful is because it contains the curative, strengthening properties of good old fashioned roots and herbs, which act directly on the female organism.

SPECIAL

Free Band Concert by Prof. Gay Jasperson's twenty piece Concert Band at the Bathing Beach, 7 P. M. Sunday, June 8th.

EVERYBODY INVITED

GREAT WAR VETERANS BAND FROM CANADA TO TOUR FOR LOAN

OTTAWA MUSICIANS WHO FOUGHT AND PLAYED OVERSEAS WILL APPEAR IN THIS DISTRICT.

Music may soothe the savage breast, but this is not the brand of harmony ordinarily played by the Great War Veterans' Band of Ottawa, Canada, which will start a tour of the Fourth Federal Reserve District beginning April 14 in the interest of the Victory Loan.

The Great War Veterans' Band is composed of thirty of the Canadians who fought in Flanders. Each of these musicians is able to "double in steel" as well as brass, and every one of them wears a wound stripe to prove it.

In France they alternately used their band instruments and bayonets and drummed the Huns out of many a trench. Several are the proud possessors of one or more hero medals.

Lieutenant T. W. James, the band leader, took the first Canadan army band to France in 1914 and served until the armistice was signed. In France he organized the First Brigade Band ever in the field with some of the men who are still with him.

A number of his players are former members of the famous Tenth Battalion, which held the Huns at Ypres in April, 1915, when the Germans sought to sweep through to Calais.

Some of the men in the Great War Veterans' Band are permanently crippled as a result of their wounds. For example—a shell-maimed left hand prevents one of the musicians from holding his cornet, so he holds it to his mouth by means of straps fastened around his neck. The solo trombone player with Lieutenant James has only one lung. Bullets and a Hun bayonet tore away the other lung, but he is still a proficient musician and in good health.

Prominent speakers and a battery of salesmen will accompany the band in its swing around the district

Triumph of Standardization.

The core shop of an old British iron foundry has been cited as a revelation in speed in turning out war work. Young girls produced cores there for hand grenades at the rate of 180 an hour, the cores, the making of which took 31 movements of the hand, being turned out in 16 seconds. The foundry itself was old and by no means convenient, but by a system of standardization of the work and by encouraging employees to take an intelligent interest in their work the output was actually trebled. Every 1,000 feet of floor space in the foundry produced 6.5 tons of light castings a week, working day shift only. The girls and women, who formed 60 per cent of the employees, were allowed ten minutes for lunch and ten minutes' interval in the afternoon.

Thermometer Unaffected by Wind.

Wind has no effect on a thermometer. Wind is simply air in motion, and the motion of the air does not change its temperature. Wind, coming in contact with the human body, produces a sensation of coldness, not because it is colder than air at rest. This sensation may be caused by the rapid contact of warm air with the body as well as by the rapid contact of cold air. The use of a fan in warm weather brings relief not by cooling the air but by setting it in motion and bringing rapidly changing masses of it in contact with the human body. But it would not have that effect on an inanimate and unsensitive thermometer. You cannot make mercury contract by fanning the thermometer.

Don't Be a Nagger.

Some folks act as though they have a mortgage on the universe. To hear them talk you would almost wonder whether or not you have a right to breathe without permission. These self-appointed directors of the world and all that's in it make life miserable for themselves and everybody they touch. They have the one and only monopoly of the way things ought to be done and you are supposed to do things that way or be anathema. Most people have various names for such folks, but when all's said they're just plain naggers.

Hunter's Secret of Success.

As a hunter the native Australian is marvelously adjusted to the environments. His success lies in an intimate knowledge of the habits of animals on land, in the ground, in trees and under water, and his wonderfully developed powers of observation. He decoys pelicans by imitating their cries, catches ducks by diving below them, locates an opossum in a tree by marks on the bark or by the flight of mosquitoes, finds snakes by the action of birds, and follows a bee to its store for honey.

ROADS AS MEMORIALS TO FALLEN SOLDIERS

Sentiment in favor of building good roads as a memorial to war heroes and to former s tatement is rapidly spreading over the country and gaining favor in many communities. At town meetings and gatherings of tax-payers in many cities this practice has been heartily endorsed. Already Philadelphia has renamed its Northeast Boulevard the Roosevelt Boulevard in honor of our former President.

Road experts and engineers in discussing the project have expressed their approval but at the same time have put forward certain arguments that cannot be denied. A memorial to be a true and fitting monument to those who have given all for their country, would be a poor memorial indeed if it fell to pieces in a few short years and became a rutted, cracked and disintegrated highway-blot upon the landscape, a disgrace to the memory of the man.

Therefore, although no more fitting tribute to soldiers and sailors could be built, it is strongly advocated that memorial roads be considered carefully and thoughtfully and without experiment.

BRING SUIT FOR HEAVY DAMAGES

The West Penn Power company is defendant in a $10,000 damage suit filed in the Washington county courts by John R. Kelley and wife of North Charleroi. The action is based on the death of their son William who was killed August 13, 1918 when he came in contact with an electric wire of the defendant company supplying power to the Valley Crystal Ice & Storage Company where he was employed.

The young man aged 15, was found dead on that date just at the entrance to the cooling plant of the ice company. It was not known for a time what caused his death. Investigation h owever disclosed the fact that his death was due to electrocution.

It is alleged that the defendant company had permitted an excessive voltage to pass through the wires at the ice company plant and that the young man who met his death when he prepared tot urn on a light received a charge of electricity that killed him instantly.

Varying Styles In Beards.

Beards have been associated more or less with age. "Gray beards" find no equivalent in "brown beards" or "black beards," and there is but one "Bluebeard." A modified beard once popular in the United States and typical of Uncle Sam is the goatee. Of a somewhat similar character is the short beard, trimmed to a point, which is usually accompanied by an "imperial" or tuft just under the lower lip, as worn by Napoleon III. They had a habit once of wearing the beard moderately long and cut to separate halfway and finish in two tassels. Reversing this process, English farmers shaved both lips and chin, which left a vacant space almost surrounded by the bristly growth underneath it. A similar clearing existed in a fashion of some centuries ago, except that the mustache was worn.

Life.

The mere lapse of time is not life; to eat and drink and sleep, to be exposed to the darkness and the light, to pace round in the mill of habit and turn the wheel of wealth; to make reason our bookkeeper and turn thought into an instrument of trade—this is not life. In all this but a poor fraction of the consciousness of humanity is awakened, and the sanctities still slumber which make it most worth while to be. Knowledge, truth, love, beauty, goodness and faith alone give vitality to the mechanism of existence. The laugh of mirth that vibrates through the heart, the tears that freshen the dry wastes within, the music that brings childhood back, the prayer that calls the future near, the doubt that makes us meditate, the death that startles us with mystery, the hardship which forces us to struggle, the anxieties that end in trust are the true nourishment of our natural being.

You Win!

The man who is riding sixty miles per hour in a big machine is no happier than the man who is riding thirty miles per hour in a flivver, because the man in the flivver thinks he is going sixty.—Cincinnati Enquirer.

But It's Always There.

Every man has embedded somewhere in his nature an instinct to dodge. And in many cases it remains dormant until he comes a taxpayer.

OUTINGS ENJOYED BY THE SOLDIERS

Charles A. Snyder a member of base hospital unit 131, with the American Expeditionary Forces in France, writes his mother Mrs. John A Snyder of 818 Shady avenue, under date of March 11 as follows:

"I am w riting from Menton, which is in the southern part of France. I am on a seven-day leave at the expense of the United States and am having a wonderful time. We remained over all day Saturday at Lyons, a picture of which I have sent you. We landed in Menton on Sunday and were at once assigned to our hotels.

"The hotel where I am stopping is first class in every respect and I imagine were I a tourist would cost me about six dollars a day. I have a room to myself fronting the Mediternanean sea and can see the vessels entering and leaving the harbor.

"This is the first time I have seen tropical fruits, such as oranges, lemons and figs growing. I am told that it never gets cold here, but is intensely hot in summer.

"Wealthy people from the United States and England have villas here and come here during the winter months.

"Yesterday we rented bicycles and rode to the Italian border which is not a great distance from Mentone. We are allowed to go about a mile into Italy.

"Today we took the electric tramway and rode up into the mountains to a height of about 2,500 feet and then we commenced climbing. We climbed to the top of a peak where the ruins of a former fortress built before the Roman invasion, is situated It was affected by the earthquake of 1888 and part of it is in ruins.

"We next took the car down the mountain to Solpul, which is also an ancient city and a quaint town of about 3,000 inhabitants. The Catholic church has some wonderful statuary and paintings and the decoration of the ceiling are worked out in pure gold leaf.

"The Latin quarter of all French cities are about the same. The The streets are narrow and one could almost shake hands from the windows opposite.

We intend going to Monte Carlo tomorrow and see the famous gambling palaces and the palace of the Prince of Monacca. I will mail you cards from there.

Then we want to go to Nice, said to be the most beautiful city in southern France.

"We saw olive oil made today and the process was quite interesting. The olives are placed in a hopper and run into a rusher composed of old fashioned round stones. After being crushed they are placed in sacks and piled under a press and the oil extracted. They are then freed of acid by the application of water, after which they are strained. The tour was in charge of the Y. M. C. A. guide.

"The "Y" has quite a nice place here and gives a show every night. They have reading rooms, games of all sorts, moving picture shows, vaudeville and dancing.

"In the letter he enclised a leaflet issued by the Y. M. C. A. explaining many of the sights in that locality, as well as what to see. Also a picture post card, showing the town of Sospel, in the Alps and which they visited on their trip.

CHARLEROI WOMAN ON RECEPTION COMMITTEE

Federal street, North Side, where they will view the parade and where they will have a brief opportunity to see their sons just before they entrain for Camp Sherman, where the regiment will be demobilized.

As to the Pittsburg program, it has been as definitely fixed as possible under the circumstances. Under present arrangements the men will detrain at East Liberty on the morning of their arrival, march to Syria Mosque, where they will get their breakfast, after which they will be granted liberty until noon. Whether members of the regiment will be permitted to dine with their relatives and friends has not yet been definitely determined. That feature will depend on the commanding officer of the regiment. After the parade the men will immediately entrain for Camp Sherman.

Why Experiment

WHY BECOME A PHYSICAL WRECK?

The best is none too good where your health is concerned. It is very costly and often dangerous to find just the right remedy to restore your health. Then why experiment?

Get a box of the Famous Bulgarian Blood Tea—for constipation, dyspepsia, liver, kidney, stomach and blood troubles. Your health will improve, your eyes will sparkle, your complexion will become clear and the glow of health will prove that Bulgarian Blood Tea is just Mother Nature's own gentle touch upon the whole system in a perfectly easy and healthy way. It works quickly and surely by making the liver active the bowels regular and the digestion perfect.

Bulgarian Blood Tea is used the world over by millions of sufferers fighting disease and warding off old age weaknesses. They include happy girls budding into womanhood or women crossing the precarious threshold of life. All praise and recommend it. Men recover their strength and vitality the blood becomes rich and pure and the snap and sparkle of good health returns to those who were in despair. Just ask your druggists today for a trial package of Bulgarian Blood Tea and you will never regret the time you spent in reading this item.

BARGE CONTRACT IS ALMOST COMPLETED

The American Bridge Company has completed 116 out of the order of 140 steel barges for the Carnegie Steel Company, at its boat building plant at Ambrige. All of these barges will be used in the transportation of coal on the Monongahela river.

AN ENDLESS CHAIN

Here is the endless chain of recommendations for Lydia E. Pinkham's Vegetable Compound. There is hardly a town or village in the United States from w hich women have not written letters telling of health restored by Lydia E. Pinkham's Vegetable Compound. If you are suffering from some female trouble, ask your neighbor if shehas ever used Lydia E. Pinkham's Vegetable Compound. In many cases you will find that she has regained health by its use and will recommend it to you.
